

Spring Hook Asymmetric Shape

Spring Hook Asymmetric Shape - also referred to as a Snap Hook, Carabina Hook or Carbine Clip. These are designed for applications where a higher degree of strength is required. The asymmetric (D-Shaped) design means the working load is mainly directed down the spine of the hook, which is considered the strongest section. Ideal for use in many Yachting/Boating applications such as rigging, ropes and mooring. Manufactured in A4 grade Stainless Steel for excellent anti-corrosive properties. Please note that the spring itself is in A2 grade stainless.

Size	Length	D	A	E	Safe Working Load (SWL) kg	Min Breaking Load (BL) kN
6 x 60	60	6	9	10	130	5.1
8 x 80	80	8	12	13	195	7.8
10 x 100	100	10	15	18	300	11.8
11 x 120	120	11	18	24	355	13.9
