

Wire Rope Clamp

Wire rope clamps made from marine grade A4 stainless steel are designed to resist corrosion and weathering, as well as the abrasive forces of the wire. Similar to DIN 741 specification, they are also known as clamps, slings, cable clip crimps, U bolt saddle fastener for steel wire rope. These clamps can be used for a wide range of outdoor applications. Use the 5mm wire rope clamp with the 5mm diameter wire and so forth.

for rope diameter	D2	H1	Length	T	A1	A2	H2
2	M3	17	11	7	16	10	10
