Westfield Fasteners Product Specification:

JRP Blind Rivet Tool RD64

Product Description

The JRP RD64 is a hand operated blind rivet fitting tool and can be used with rivet diameters from 3.0mm to 6.4mm. Also known as blind rivet pliers, the JRP RD64 is supplied with 3 additional diameter nose pieces, located and stored inside the handle.

The JRP RD64 is considered a more heavy duty riveting gun, with long ergonomic handles for comfort and to increase the force applied for easier use in application. The strong and slim body of the tool allows for easier access to the fixing point and includes a mandrel collector for cleanliness and safety. Table 1 below displays the rivet diameters and materials compatible for use with this tool.

The tool is supplied with interchangeable nose pieces for use with the relevant sized rivets, and replacements for these are available on our website.

Product dimensions:

- Overall length: 520mm.
- Overall width: 180mm.
- Weight: 1.04kg.
